The list of suppliers' contact information is compiled from a wide range of sources. As such Derbyshire County Council cannot provide any guarantees or warranties about any of the suppliers on the list or the products they supply. It is the responsibility of each individual organisation to exercise due diligence, to ascertain the suitability of the supplier and their products, and to carefully consider any associated risks before entering into any agreements with a supplier to purchase their products. Particular caution should be exercised when payment is requested upfront.

Please note that this list is not exhaustive and there are other suppliers available throughout the UK.
